

Y6 Curriculum Planning Document – WB 6th July 2020

As we head towards the summer holidays, we thought it would be nice for you to access more topic related learning, rather than Maths and English. Therefore, we have taken the Maths and English content off the PLP. If you would still like to access this, there is plenty of material for you to use on the Oak National Academy website – feel free to complete any of this at your leisure.

Cross-Curriculum Areas

Tomorrow's World – Our new cross-curricular topic for the final Summer Term.

Text messages, emails, websites, blogs and podcasts – there are so many ways to communicate.

Learn how to set up your own class blog and build a homepage on a subject of your choice. Suggest ways of improving your school website and hopefully the Headteacher will listen to your ideas!

Discover the movers and shakers in the world of technology – the people who've shaped the modern world. Perhaps you might be a visionary for the next generation.

Build robots and circuits, break codes and investigate gadgets galore. Why not write a thriller narrative in the style of Anthony Horowitz? Don't know who he is? Research it!

Then, on request from MI6, build a website for a new Spy School. What pages will it need? One for gadgets maybe? A secret lunch menu? You decide! Let's start today on Tomorrow's World...

We have recommended different activities to have a go at completing this week:

Computing – Become a 'web crawler' and find out as much information as possible about a favourite topic. Bookmark useful websites so you can keep going back to them to later copy and paste useful, relevant text and images into a blank Word document. Save the document to a digital folder.

Computing – Discuss with a family member, what music you/they like, whether they listen to music online, and what apps or websites they use. Talk about how their parents or carers listen to music. Research the words 'copyright' and 'piracy', including what they mean in relation to music. Download copyright-free music and listen to it using headphones. Search for and collect music that links with your favourite topic, saving examples in a digital folder.

Art – Study logos used by search engines and other online companies. Describe how colour and shape can be used to create a brand or identity. Sketch ideas for a logo that could be used on your own website. Experiment by combining shapes and using different colours.

Science – Research different symbols used in circuits, including lamp, switch, battery (cells), wire, buzzer and motor. Design and draw a variety of different circuits showing how each individual symbol works.

PE - <https://www.youtube.com/channel/UCAxW1XT0iEJo0TYIRfn6rYQ> - Joe Wicks provides a 30 minute workout every morning from 9:00am. This is a great way to start your morning, I have done these myself and they are challenging! The stream goes live from 9:00am, so don't miss it!

Spanish - Visit **lightbulb languages website** (<https://www.lightbulblanguages.co.uk/home-spanish.htm>)

Watch Spanish 34 clip: saying singular foods and drinks. Practise saying the foods and drinks.

Challenge 1: play games at the side of the clip.

Challenge 2: draw 5 of the foods / drinks and write what they are in English and in Spanish.

Watch Spanish 35 clip: giving opinions of singular foods and drinks. Practise giving opinions about some of the foods and drinks.

Challenge 3: have a go at the writing frame activity at the side of the clip.

Watch Spanish 36 clip: saying plural foods and drinks. Practise saying plural food and drinks.

Challenge 4: play games at the side of the clip.

Art – Same artist as last week - Rob Biddulph. An illustrator/cartoonist (Official World Book day illustrator!) and author. He posts a draw-along video that he puts on his youtube channel every Tuesdays and Thursdays at 10am. His full back-catalogue is available by using this link – <http://www.robbiddulph.com/draw-with-rob> - some real top quality cartoon illustrations!

Contact

Feel free to send pictures of this week's home learning that your child has completed.

Mr Stevens– class13teacher@charnockhallacademy.co.uk

Mr Stewart- class14teacher@charnockhallacademy.co.uk

We look forward to seeing your home learning!
