<p>Science</p>	<p><b>Electricity</b> Identify common appliances that run on electricity. Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers. Electricity Sc E 3 Y4 Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery. Electricity Sc E 4 Y4 Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit. Electricity Sc E 5 Y4 Recognise some common conductors and insulators, and associate metals with being good conductors.  Report on findings from enquiries, including oral and written explanations,</p>	<p><b>Digestive System/Teeth</b> Describe the simple functions of the basic parts of the digestive system in humans Identify the different types of teeth in humans and their simple functions Set up simple practical enquiries, comparative and fair tests. Make systematic and careful observations and, where appropriate, take accurate measurements using standard units, using a range of equipment, including thermometers and data loggers. Gather, record, classify and present data in a variety of ways to help in answering questions. Working scientifically Record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables.</p>	<p><b>Sound</b> Identify how sounds are made, associating some of them with something vibrating. Recognise that vibrations from sounds travel through a medium to the ear. Find patterns between the pitch of a sound and features of the object that produced it. Find patterns between the volume of a sound and the strength of the vibrations that produced it. Recognise that sounds get fainter as the distance from the sound source increases.  Use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions.</p>	<p><b>Living things and their habitat/Animals including humans</b> Construct and interpret a variety of food chains, identifying producers, predators and prey. Recognise that living things can be grouped in a variety of ways. Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment. Recognise that environments can change and that this can sometimes pose dangers to living things.  Ask relevant questions and using different types of scientific enquiries to answer them.
