

Have a go at some of these ideas:

- Make a treasure book to record your ideas with drawings or photos of things that you treasure. Use a range of materials.
- Research seaweed and how it is suited to its environment. The Natural History Museum website has excellent photos and descriptions to help you.

- Research rock pools and draw a diagram of what you may find there and label it or you can make a model.
- Make a mystery bottle that can carry a message along the shores!
- Make a puppet of a creature that lives at the seaside.
