

Y4 Curriculum Planning Document – W/C 8th June 2020

We hope you are keeping safe and staying busy during this difficult time. Below is the home learning to be completed from 8th June 2020 for Year 4 pupils. Please send us photos and videos of what you have been up to... it really does brighten up our day!

Mathematics

Please use the following Oak National Academy resources which will focus on content that pupils would have experienced in school during the Summer Term. The content that is covered links directly with our current mathematics scheme within school, Power Maths, just delivered in a different format.

Using this link - <https://www.thenational.academy/online-classroom/year-4/maths#subjects>- please access the '**Area and Perimeter**' tab to access the 5 different lessons for this upcoming week:

Complete **one** Area and Perimeter per day. From Lesson 1 to Lesson 5.

There is an introductory quiz before every lesson, followed by a video which will go through some examples. Once you have watched the video, you will then be taken to some activities to complete – **there is no need to print any resources!** Followed by an exit quiz.

Please continue to use Times Table Rock stars to keep up your multiplication recall using sound check, garage and studio.

English (Reading, Writing and SPaG)

This week please carry on with your Talk for Writing home school booklet attachments linked to Year 4 called 'Mission Impossible' by Kat Pennington. This booklet does not need to be printed and can be completed like the previous Talk for Writing booklets. Once again this booklet will last 2 weeks.

Below are a range of other activities that can be used to cater for English lessons this week:

www.pobble365.com

www.literacyshed.com

www.onceuponapicture.co.uk

These websites are a great way to experiment with creative writing. Pictures and videos stimulus are used to inspire children's imagination with some offering learning ideas and teaching guidance.

Weekly Spelling

Please refer to Statutory Spelling Word Activity mats document and complete 1 word mat a day where possible.

Sheffield's sweet enough! – Healthy eating recipes and activities.

This is a city wide initiative launched by Sheffield City Council with the aim to help reduce tooth decay and obesity in Sheffield over the next five years. The initiative provides information on the effects of too much sugar and the tools families need to make informed choices to support their health. The dedicated website (<https://www.sheffieldissweetenough.org/>) has lots of interesting facts about sugar, guideline daily limits and top tips for healthy sugar swaps. Attached to the Pupil learning packs is a 'Feed your family for less' document, which contains tips and recipes on how to eat healthier, and activity worksheets that can be completed to help provide knowledge on 'sugar heroes' and 'sugar culprits'.

Message from Miss Stringer and Mr Gabbitas:

We have loved using Literacy Shed to look at short videos with different genres. We have chosen videos that we found interesting and are challenging you to complete some creative and imaginative tasks.

Miss Stringer: I have chosen 'Embarked' <https://www.literacyshed.com/embarked.html>

This short video is about Jimmy, who loves his tree house. It holds many special memories for him. When Jimmy has to move to the city with his family, it is a very sad day for both of them. So the tree house decides to do something about it. Using this short video can you design your own tree house, giving instructions on how to build your treehouse so it is stable, safe and secure? If you're feeling adventurous, can you create your own treehouse in your back garden? If you don't have any trees, improvise and use what you have got!

Mr Gabbitas: I have chosen 'Catch It' <https://www.literacyshed.com/catchit.html>

This video is about a group of meerkats who lovingly tend to a beloved and unique fruit in the middle of the savannah. One day, their peaceful existence is disrupted by a vulture intent on stealing their pride and joy. Will the meerkats be able to get it back? Using the APP Chatter Kid Pix, you could tell the story from the meerkats point of view. Or you could describe the beautiful settings of the African plains by creating a video advertisement, including pictures and videos from the internet, using iMovie or alternative video creating APP.

Other Curriculum Areas

1066 – Our cross-curricular topic for Summer Term 2.

It's probably the most famous date in English history...we're travelling back to 1066! These are troubled times and there is danger afoot. A much-loved king is dead and a French Duke has staked a claim for our kingdom. Not to mention all the other wannabe monarchs! Discover a changing England, shaped by shired, protected by castles and ruled by foreign knights.

We have recommended 4 different activities to have a go at completing this week:

Art & Design – Make your own life-size 1066 soldier! Download online images of Norman or Anglo-Saxon soldiers and look in detail at their armour. Ask someone to draw around your body outline on a piece of large paper, such as wallpaper. Cut this out and draw the soldier's face, then create armour using collage materials. Milk bottle tops or circles of tin foil would create a chain mail effect. Use card from junk boxes to create a shield and sword, then paint them.

History/ICT – Using

<https://www.bbc.co.uk/bitesize/topics/ztyr9j6/articles/z3s9j6f> Create a digital presentation with interesting facts about 1066 to share with other classes.

PE – Fitter Future. Using fitterfuture.com, complete challenges, tips and tricks, games and workouts throughout the week. Challenge yourself to create your own game or tricks and send a video or picture with an explanation on how to do it and we will give it a go!

Outdoor learning – Visit a castle or fort with your family (if possible) or find a castle via Google Earth. Take lots of pictures or screenshots and tell us about your trip through a diary entry or research the castle and write down some key facts about it.

Spanish

Visit lightbulb languages website (<https://www.lightbulblanguages.co.uk/home-spanish.htm>) Scroll down to find video clips.

Continue with last week's learning, ensuring you have covered every element.

Art

Please use the attachments listed under the title 'Art'. There are daily challenges on how to make art every day using the idea of everyday food.

Rob Biddulph is an illustrator/cartoonist (Official World Book day illustrator!) and author. He posts a draw-along video that he puts on his youtube channel every Tuesdays and Thursdays at 10am. Also, Sheffield artist Pete McKee has how-to-draw cartoon workshops on Youtube, where he teaches you how to draw a range of cartoon-style characters.

<http://www.robbiddulph.com/draw-with-rob>
https://www.youtube.com/channel/UCBpgrJijMpk_pyp9uTbxLdg

Here is Miss Stringer's https://www.youtube.com/watch?v=vm6iyqw_v2Q and Mr Gabbitas' <https://www.youtube.com/watch?v=fj12BZE5FKw> favourite 'Draw with Rob' videos. We hope you enjoy drawing along.

New initiative

"Sheffield's sweet enough - Healthy eating recipes and activities

This is a city wide initiative launched by Sheffield City Council with the aim to help reduce tooth decay and obesity in Sheffield over the next five years. The initiative provides information on the effects of too much sugar and the tools families need to make informed choices to support their health. The dedicated website (<https://www.sheffieldissweetenough.org/>) has lots of interesting facts about sugar, guideline daily limits and top tips for healthy sugar swaps. Attached to the Pupil learning packs is a 'Feed your family for less' document, which contains tips and recipes on how to eat healthier, and activity worksheets that can be completed to help provide knowledge on 'sugar heroes' and 'sugar culprits'. "

Personal message

Keep going with your home videos or a day in the life of a Y4 pupil. We have enjoyed receiving them through. As a reminder, you can film what you get up to in your everyday life in snippets and small videos and then combine the videos to create one long 'Day in the Life' trailer or alternatively you could send us a video message. You can be as creative and imaginative as you like. If you don't want to be on camera, then maybe you could make a puppet, use Lego or a toy and create a stop-start animation.

You can use any device to create this. If you have an Apple product you can use a free app called 'iMovie' or if you have an android product you can use a free app called 'FilmoraGo'.

Mr Gabbitas, Class 9 – class9teacher@charnockhallacademy.co.uk

Miss Stringer, Class 10 – class10teacher@charnockhallacademy.co.uk
